

Test Log

Number	Description	Input data	Expected output	Actual Output	Pass / Fail	Actions / Comments
1	Initial test - main menu and question 1	Continue, A	The main menu should display the title and start button, when clicked it should take us to the first question where the question is at the top and centre with 4 buttons below with options for answers. When a button is clicked it should display a message saying if its correct or incorrect with the answer. Then the user is moved onto the next question with the previous window closing automatically	The continue button did not display	Fail	I had forgotten to add <pre>continue_button = tk.Button(root, text='Continue', font=('Arial'), width=20, command=question1) continue_button.pack()</pre> 
2	Checking that the continue button is working as expected	Continue, A	As mentioned above	Working as expected	Pass	I am now going to continue with questions 2 and 3
3	Checking questions 2 & 3 have no bugs	C, B	As mentioned above	Working as expected	Pass	I am now going to create question 4 - 6
4	Checking questions 4-6 have no bugs	D,C,A	As mentioned above	Information displayed as expected but the buttons need to be widened to fit all the text properly	Fail	Button A needs to be widened to fit all text. I changed the width from 20 to 25 
5	Checking questions 4-6 have no bugs	D,C,A	As mentioned above	Working as expected	Pass	I am now going to create questions 7-9
6	Checking questions 7-9 for bugs	B,D,C	As mentioned above	Working as expected	Pass	I am now going to create questions 10-12. However, I did change the button width from 20 to 25 on question 8 to ensure larger
7	Checking questions 10-12 for bugs	D,A,B	As mentioned above	The window for question 11 did not close	Fail	I had forgotten to add this line at the bottom of the question 12 function <pre>question11_win.destroy()</pre> 
8	Checking that the bug in question 12 is fixed	D,A,B	As mentioned above	Working as expected	Pass	I am now going to create questions 13-15
9	Checking questions 13-15 for bugs	A,C,B	As mentioned above	Working as expected	Pass	I am going to create questions 16-18. I did put the button width as 20 instead of 25 for some of the buttons on question 15 which was a quick fix.
10	Checking questions 16-18 for bugs	D,B,A	As mentioned above	Working as expected	Pass	I am going to create questions 19 & 20
11	Checking questions 19 & 20 for bugs	B,C	As mentioned above	Working as expected	Pass	I am going to create the results window
12	Checking the results window works as expected	Continue	The results window should write the score to scores.txt		Pass	The quiz is working as expected with no bugs.
