

Test Log						
Number	Description	Input data	Expected output	Actual Output	Pass / Fail	Actions / Comments
1	Ensuring that the start window and first 5 questions have no bugs	Start, A, C, D, C	Start window should have the title at the top and the start button below. The windows for questions 1-5 should have the question at the top then 4 buttons. The appropriate message should show for the chosen answer then the next window appears with the next question	All windows work as expected	Pass	I noticed a spelling error before starting the test which would've caused question 5 not to appear as expected.
2	Verifying that questions 6-10 have no bugs	B, D, A, C	As mentioned above	AttributeError: 'Toplevel' object has no attribute 'tile'. Did you mean: 'title'?	Fail	I have fixed the error and will test again from question 9
3	Checking that the bug in question 9 is fixed	A, C	As mentioned above	Outputted how it was expected	Pass	Both questions 9 & 1-0 work as expected
4	Ensuring that questions 11-15 have no bugs	D,B,C,A	As mentioned above	No bugs found	Pass	
5	Verifying that questions 16-20 have no bugs	B,C,A,D	As mentioned above	No bugs were spotted	Pass	
6	Testing the whole program	Start, A, D, B, D, C, A, B, B, D, A, C, B, D, A, C, D, A, B, D, C	Score: 5/20	Score: 5/20	Pass	Now going to check that the score is saved to scores.txt correctly
7	Checking that scores are saved correctly to scores.txt	Using input from test 6	Result successfully saved. 16:24 04/22/2026 Score: 5/20	Worked as expected	Pass	Quiz complete! Everything is working as expected
